Description :

- **BAVELLONI SB 10 Semi-Automatic Edging/Bevelling Machine For The Edges Of Shaped Glass**

Horizontal, Semi-Automatic Edging/ bevelling machine for grinding, polishing and bevelling the edges of shaped glass.

The machine is suitable for bevelling and edging large size pieces thanks to the patented star-shaped rotating face-plate, it is also capable of producing small pieces using the incorporated independent satellite face-plate. A pneumatic piston also allows the head positioning for processing simple shapes semi-automatically.

Equipped with an electronic wheel position regulation and storage for rapid production changes (stores 99 positions) and a servo system for wear compensation.

Specifications:

- Glass thickness: 3 - 40 mm (3/16" - 1-9/16")
- Workable height: 35 mm

Sales - Liquidations - Auctions - Appraisals - Consulting

- Min. glass size: 40 x 40 mm (1-9/16" x 1-9/16")
- Bevel: 0° to 45°
- Max. bevel width: 40 mm
- Dimensions: 2500 x 2800 mm
- Weight: 600 kG (1324 Lbs)

NOTE: Currently under power and in good operating condition. Includes machine, welded mesh steel working platform and ancillary attachment.
